3,028
quantitative surveys

348
qualitative interviews

Collected
between
2015 and
2016

- 1,478 Parents
- 1,082 Teachers
- 176 School Staff
- 119 Human Services Providers
- 96 School Administrators
- 77 Community Members

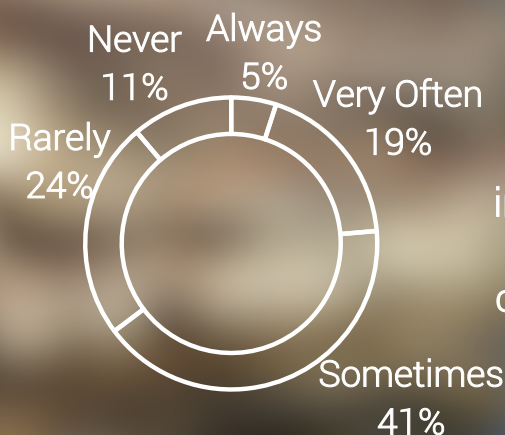

across
15
school
districts
in NWA

59% of teachers
surveyed
agree that they are an
additional caretaker for
students and their
families

85% of non-
teachers
surveyed
agree that teachers in
NWA are well-respected

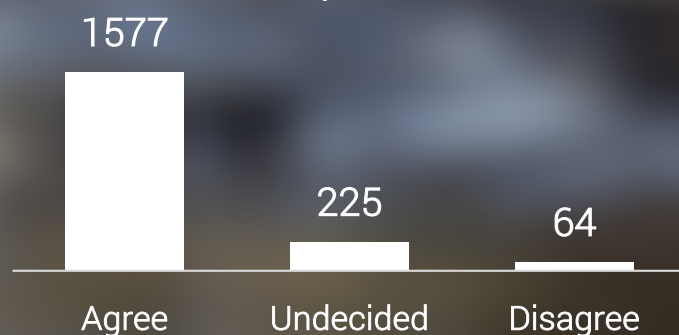

71%
said they don't think
students' mental health
needs are being met in
NWA

54%
can't easily identify basic
needs resources

How often
are you
given
information
about
community
services?

Combining mental and physical health
services would improve access to care.

"I understand the need because I see
the need that we have because these
are the kids that are transient and they
move from school to school. We don't
know what has been done and what's
worked."
- quote from focus group
